StarNet Wireless Drops Pricing On Residential Computer Repair

Bay City, Michigan (April 3, 2009) – StarNet Wireless has lowered the price of having residential computer repair work done. The new pricing is set at $29 per hour with a service call fee of $25 if a technician is sent out to the customer's residence for the repair. "Pricing has been set low to directly compete with many larger corporations that charge their customers upwards of $95 per hour to fix their computer", says Dustin Jermalowicz, Business Development Manager at StarNet Wireless. "It is really exciting to be able to offer top notch service to our customers at a competitive price. We really do look forward to helping our customers with all of their tech needs in the future."
