## **StarNet Wireless Deploys Service in Verizon Areas**

Bay City, Michigan (August 15, 2007) – StarNet Wireless has completed an agreement with Verizon that allows the company to deploy and market high speed internet services within Verizon Michigan and Indiana areas. This agreement has expanded services to 62 Michigan communities and 29 Indiana communities. Service plans will range from 768kb to 7.1mb with pricing starting at just \$19.44 per month.

“This will help us gain access to many rural areas in Michigan and Indiana that have limited high speed options,” said Jordan R. Dice, President/CEO of StarNet Wireless. “Over the past two years our waiting list has increased to over one thousand people located in Verizon areas. Over the next six months we will be working on provisioning services for these people.”

Below is a list of the areas that will have service through the company’s agreement with Verizon:

Alpena, MI	Grayling, MI	Lachine, MI	Gaylord, MI
