StarNet Wireless Adds Service Technicians

Bay City, Michigan (October 1, 2007) – StarNet Wireless has added service technicians based out of Hillsdale, MI serving southern Michigan, northern Ohio, and northern Indiana. These service technicians have experience and training to handle many of the different products and services that StarNet Wireless provides. The company receives contract work and service calls from large companies such as Hewlett Packard, MPC, CompUSA, and IBM for service of computer and networking hardware systems. This work includes dispatch to residents, small and large size corporations, and government entities.
